establish a Committee to study the matter of incorporation the Teachers' College as a part of the University.

Carried.

Future Development of the University

The President reported briefly on the expected development of the University. By the means of wall maps he indicated the property presently held by the University, and the need to re-locate Oliver Road around the existing holdings.

He stated also, that there was a need for a financial campaign and that it is presently being organized to raise the sum of $3,000,000.

$21,250,000 $3,000,000
He further indicated that the present plans called for the construction of the
Centennial Building to commence about December 1st of this year.

In regards to residence, he stated that within the next (5) five years it was
desirable to provide residences for 30% of the student body.

The Chairman stated that the Board of Governors were interested in establishing
a Committee to study the future development of the University. The Committee to
be made up of Board Members, Senate, and at least one student. It was so moved
by Dr. Hideout, seconded by Dr. Miller. Carried.

It was moved by Dr. Braun, seconded by Dr. Miller that the Senate approve in
principle the plans of development of the University. Carried.

Slavic Studies

Dr. Rothney reported on the Brief submitted to the Senate members by the Lakehead
University Ukrainian Club, on the subject of the "Establishment of Slavic Studies-
Lakehead University". After considerable discussion, it was moved by Dr. Rothney
seconded by Mr. Caccamo that the first recommendation in the Brief, that two
Ukrainian courses at the Second-year level be inaugurated in the Autumn of 1966,
not be met. Carried.

Arising out of the other two recommendations in the Brief, Dr. Rothney moved that
the Senate (1) approve the hiring of personnel to enlarge on Slavic studies, and
(2) approve in principle of the development of inter-disciplinary studies, in-
cluding Slavic Studies. He reported on the introduction this year of a new Honors
course in Slavic History and on the appointment to the regular staff of Mr. D. Suder,
to develop Slavic Studies. Seconded by Mr. Heggerty. Carried.

New Business

Dr. Rothney gave Notice of Motion that the (1) Department of Economics and Political
Science be replaced by separate Departments of Economics and of Political Science.

(2) That the Department of Psychology and Sociology be replaced by separate
Departments of Psychology and of Sociology and Anthropology.

Dr. Hideout moved that Dr. Merrill's course English 396 be offered as an Honors
course as well as a pass course. Seconded by Dr. Rothney. Carried.
1. Minutes of the previous meeting.

2. Business re minutes.

3. Motions of which notice has been given.

4. Correspondence:
   Recommendation from the Faculty of Arts and Science.

5. Centennial Building - Future Plans.

7. Committee on Television.

8. University - A. M. S. Liaison Committee.

Dr. Miller proposed that the Senate enjoin the Deans of Arts and Science respectively to convocate joint meetings of the two Faculties upon occasions where inter-disciplinary matters are being discussed and that each Dean designate representatives of his Faculty to attend meetings of the other Faculty. **Agreed.**

---

### Committee on Television

Dr. Tomblyn mentioned that the Department of Education was getting into Television and that Mr. Han Ido who had previously been located here in the Lakehead was the present Director of this part of the Department of Education. The President asked permission to name a Committee on Television. It was agreed that he should do so.

---

### University Committee

The Chairman indicated that a Committee of six (6) members of the University Staff, which might perhaps be called a University Committee, including the Director of Finance, the Director of Plant Operations, the Dean of Students, the President, and two members from the Teaching Staff was being considered.

Dr. Bothmay recommended that the Teaching Staff be represented by three (3) members, and that the Faculties and University Schools nominate a representative and an alternate to be approved by the President. **Agreed.**

---

### Notice of Motion

Dr. Miller gave the following Notice of Motion: "Whereas it has been reported in the school newspaper that a student disciplinary body was being formed, and whereas the ultimate deterrent is expulsion which has educational overtones, this matter falls under the purview of the Senate, and the disciplinary program must come before the Senate for approval."

---

### Centennial Building and Future Plans of the University

The Chairman discussed the manner of financing buildings and of equipping these buildings which would be necessary for the development of the University. He indicated that the 700 seat Auditorium plus additional admi-
nistrative space and research space not immediately needed be cut out of the plan for the Centennial Building, as the cost for this building had been considerably more than that planned for. He indicated further that although the five-year program has been approved, there has been, as yet, no discussion of priority of the various buildings, although he indicated that the Centennial Building, the addition to the Library, the additional residences and the Athletic Buildings must go up very quickly. He further indicated that three million dollars must be raised as a result of the financial campaign.

18. Library Opening

The Chairman reported that Senator Paterson will be in the Lakeshead on October 27th, and that a small ceremony will take place to open the Library with him officiating. He requested that official approval be given by the Senate.

It was moved by Dr. Rideout, seconded by Mr. Elmslie that this meet with the approval of the Senate. CARRIED.

The meeting adjourned at 1:50 P.M. having convened at 12:15 P.M.

_____________________________  ________________________________
Secretary of the Senate          Chairman
It's hard to believe but the model you see above is Lakehead University, 1970. The university today announced a phenomenal $23,000,000 expansion program with work expected to begin in January, 1967. Three stories will be added to the library—(top-far right), a new field house will be erected, (bottom left) and, it is hoped, a start will be made on the new 300-bed residences (bottom right U-shaped buildings)...all with a completion date of September next year. Focal point of the new campus will be a five-acre man-made lake which will be created by damming the McIntyre River. The lake will be used for boating and fishing in the winter, and it is assumed, swimming in the summer.

Most impressive new building will be the Centennial Complex, a $12,000,000 structure which will house science, technology and administration. It will be built adjacent to the University Centre building and the present Quadrangle and can be seen above at top left. An academic building is planned beside the present library, (top) and a cafeteria and dining room addition connecting the present University Centre and the present residence (centre, right) will also be started next year.

See page three for complete details.
A NEW CAMPUS
A NEW FUTURE

Today a dream was consummated with the official announcement of a dynamic expansion program at Lakehead University. The entire campus will be constructed on a sprawling design, not in terms of multi-story monstrosities. Buildings will accommodate climatic factors as well as landscape. U-shaped, construction will surround a 5-acre artificial lake, to be formed by the damming of the McIntyre River. This body of water will provide a focal point comparable to the mountains of Simon Fraser University. The lake will inevitably be used by students for skating and swimming, and a sand beach might even be considered!

HUGE CENTENNIAL COMPLEX

The $13,000,000 Centennial Complex, will be the major single edifice. This one building will cost 250% more than the total cost of all present structures. Increased facilities for students such as lounges, residences, and cafeterias will be another feature.

Architects Fairfield and Dubois have designed such famous sites as the Shakespearean Theatre in Stratford, Ontario, as well as the Ontario pavilion at Expo '67. Although all final plans are not as yet complete, some construction will commence almost immediately; the field house is anticipated to be finished next September. Ground will be broken early in the new year for the Science building.

Already there are rumors of a 3-storey addition to the library.

PRESIDENT TAMBLYN LAUDED

Thrilling as these details may be, many individuals will scoff at the plans, feeling that expenditures are mere frills. Yet even these people will admit that increased facilities will attract both students and faculty to Lakehead Universi-
L.U. DEVELOPMENT FUND
HITS $2,250,000 MARK

The Lakehead University Development Fund Campaign passed the $2,250,000 mark this weekend.

Campaign Chairman Robert J. Pretie cautioned, however, that the hardest part is still ahead.

To a great extent the last part of the campaign will be made up of personal donations from individuals, union members, members of the professions and residents of our surrounding communities.

The campaign total on May 17 stood at $1,250,786. The major gift areas include $1,575,000 from national corporations and $1,771,835 from the Lakehead commercial and industrial canvass. The in-plant, professions and Northwestern Ontario canvassers are just getting underway and the success of this part of the program will decide the success of the overall campaign.

Meanwhile Lakehead University President Dr. W. G. Tamblyn released Wednesday the artists' conception of the new Centennial Building presently under construction.

The five-storey structure represents $14,000,000 in building costs and scientific equipment. Architects Fairfield and Dubois of Toronto who also designed the Ontario Pavilion at Expo ‘67, have created a U-shaped building on the shores of the man-made lake. It will be larger than all the present campus buildings combined, containing some 250,000 square feet. It will be highlighted by a courtyard or agora entrance which is planned to become the meeting place of the university.

The building will house science technology and arts program classrooms, administration offices and three lecture auditoriums each with a seating capacity of 350. A large 750 seat lecture auditorium is also included for the building complex. It will be situated right behind the present University Theatre.

P HOUSING- AN ANALYSIS

by Rod Phillips

There is a great deal of dis-...
Mr. Wayne Tourchi, last
year’s AMS President, has been
invited as one of thirty Cana-
dian students to take part in a
tour of Russia this spring. The
tour has been organized by the
Canadian Union of Students in
cooperation with the student union
of the USSR.

The tour within Russia will
be subsidized by the Russian
student organization, but Mr.
Tourchi will bear the travel
expenses himself.

The AMS has provided $100 in
agreement with the privilege
ted as an LU student and on
understanding that he will
be a series of eight feature
articles on Russia for the sum-
mer ARGUS. Mr. Tourchi left
for a mid-week briefing
Montreal and will arrive in
Russia over the weekend for
the start of the 21 day tour.

Mr. Tourchi has agreed to
organization of a reciprocal
by Russian students in
Canada during August.

Paint Tunnels

A mural representing

buildings are brown and greens.

Social inexpensive heater
has been designed for the
project as well as coloured
coverings. The overall
is to convert the present
of coal and wood and
bing into Lakeside
University’s first major
of permanent art. It is
guaranteed that such a
ttend more than local
recognition, believes Mr.
Buck. Although the propos-
for the project will be
considering the size
project, it is high enough
of a financing problem.
ll be the possibility of
izing this problem which
be the major consider-
then the University Com-
ed to accept or re-
the proposal.

The expansion program has
to date run into no major set-
backs according to Mr. Claude
Smith, Director of Planning and
the Physical Plant.

Progress towards comple-
tion of the Athletic Field house
has been set back slightly with
the expected completion date
set for December, 1966.

Original bids for its con-
struction were considered too high by
the Department of University
Affairs and the Administration
and revised tenders are present-
ly being reviewed and will be
awarded shortly.

The Library project is a dif-
ferent story. The current pro-
gram is proceeding on sched-
ule and the classroom and office
areas will be completed for
the beginning of the next term.
The top floor, which will house
books, should be completed
sometime during the term. The
Painter’s strike, which
stopped work on the site for three
days earlier this month, did not
seriously affect the program.

Another item that will be of
interest to all students is the
proposed solution for the park-
ing space problem. Mr. Smith
said that the areas now in use
will all be completed in
next year. However,
there will be improved access
to the building through a new
entrance via the tunnel north
of the Library. The parking lot
for the expanded site, to be
situated near the present entrance
to the University, may also be
completed for the start of the
year.

The big Centennial building
project is more complex. At the
present time the tenders have
been let for the Power Plant,
which should be completed for
October 1967. Mr. Smith explains
that the entire project has been
split up into several smaller
divisions to facilitate planning.
The wear for the Centen-
ni building itself are presently
being constructed, as is the
Mechanical and electrical part
of the Power House. The struc-

He is not Johnny
by Sze-Chung Yuan

Johnny wishes he could be
As tall as his shadow,
But he looks just as short;
Fleeting over the alleyway,
To the door of a hall.
He is not the only one there;
In fact, quite a crowd.

TWO REMINDERS

The CUS office has mailed
questionnaires to all students
who lived in residence last
year soliciting their comments
complete and return it as soon
as possible.

There is also another athletic
questionnaire in the works
Dynamite Heralds Opening of the Centennial Building

Dr. Bentley, Chairman of the Board of Governors, began the ceremonies with a run-down of the dignitaries present on the platform.

Lord Bowden of Chesterfield, a noted educationalist and scientist from Britain, pressed the plunger to officially break the ground for Lakehead University's Centennial Building.

Lakehead University's President Dr. Tamblyn and Lord Bowden exchanged congratulations in acknowledgment of the opening of a new era at the University.

The Centennial Building will be a showpiece of our $20,000,000 expansion program. A $14,200,000, five-storey structure, the Science and Technology complex will be twice as large as all other present buildings combined. Built in a sheltered 'U' shape, the Complex will include an administration wing, a top floor of faculty offices, a basement level for research and laboratories and three floors of classroom space. Three science auditoriums, each seating roughly 350 persons, are included in the plans.

The Complex will be built adjacent to the present University Centre Building. An impressive courtyard has been designed as an overall entrance to the University.
Site and Buildings

The original College site comprised some eighty acres of land lying between the cities of Port Arthur and Fort William and was donated by the City of Port Arthur.

The Advisory Committee conducted a building fund campaign from which the sum of $175,000 was raised, mainly from local industries and individuals.

The first College building was constructed by the Department of Public Works of the Province of Ontario. It was formally opened on October 2, 1957. A new library wing was added in March, 1960. In the fall of 1961, two extensions providing additional lecture rooms and laboratory space were opened.

A Men's Residence, with living quarters, including recreational and dining facilities for 52 students and a resident staff member, was opened in September, 1962. In the same year, 105 acres of adjoining land were purchased in anticipation of future expansion.

In 1963, a building fund campaign was launched with a goal of $750,000. Over $800,000 was raised.

On February 15, 1964, the University Centre was officially opened. It houses a 380-seat theatre-auditorium, as well as lecture and seminar rooms, club rooms, and a cafeteria.

An additional wing was added to the original building in the autumn of 1964, and in 1965 a new library building was erected, and an additional 110 acres of adjoining land was purchased.

In 1966, 32 additional double bedrooms were added to the Residence. A section of the new structure was made available as a residence for women. A further wing to house science elementary and research laboratories, offices and lecture rooms was completed in the fall of 1966. The university architects have prepared a master plan of the campus, to ensure orderly building development. An additional three floors were added to the new library building and an Athletic Centre was completed in March 1968.

The Centennial Building, which will house the Science and Technology laboratories and classrooms, is presently under construction, as is an addition to the University Centre. New residences should be completed for the fall of 1968 to prepare for the expected increase of student population.

The Library

The University Library occupies a separate building. Three storeys of this building were constructed in 1966. In 1967, three more storeys to the existing structure were added. The main floor, second and third library floors are utilized. Communication between library floors is by means of elevator and stairways. The library contains a total of over 450,000 volumes and seating for 1,000 readers. The capacity of the library is 450,000 volumes.

The stock of the Library consists of nearly 80,000 volumes of books and bound periodicals, also approximately 3,000 - 4,000 volumes of periodical runs, and over 2,000 volumes of more than a thousand journals and magazines. Many others, regularly and between 15,000 and 20,000 volumes are available. The library is open from 9:00 AM to 9:00 PM, Monday to Thursday, and from 9:00 AM to 5:00 PM on Friday.

The library is equipped with a series of machines for the preparation of bibliographic works, the Open Stack collection, and the Reference Collection, plus many other items. The Reference Collection, consisting of five and ten items, going back to the earliest engineer collection of documents, journals, papers and to the history of North Western Ontario and a s.

Incorporated in the main collections is the Forestry Centre, which includes some 3,000 pamphlets and is also building a vertical file collection of ephemeral interest. It is also a depository library, and Publications, which, together with other materials are at present merged with the general stock.
TYPICAL FACULTY OR ADMIN. OFFICE

SENATE CHAMBER

The above presentation drawings by architects Fairlawn and Dunlop indicate the suggested design for the academic and administrative offices (left) and the senate chamber (right) in the Centennial Building. Minor changes have been made since the drawings were first presented but the designs remain basically as they are shown above. The drawing on the back page of L.U. Week represents a typical secretarial and reception area.

LIBRARIAN OF THE YEAR

SUDAR HONORED

The Director of Lakehead University's School of Library Technology, Associate Professor D. D. Sudar has been named the Outstanding Librarian of the Year by the Ontario Library Trustees Association.

The award is in recognition of his distinguished achievement and significant contribution to the advancement of library service in the Province of Ontario. The presentation was made at the annual Ontario Library Association Convention held at Laurentian University in Sudbury from May 2 to May 4.

Assoc. Prof. D. D. Sudar

Prof. Sudar was responsible for the establishment of the first Library Technology Program in Ontario at Lakehead University in 1966 and for its growth and development since that time. Before coming to the university he was Director of the Northwestern Regional Library Cooperative in Fort William from 1956 to 1966. Born in Belgrade, Yugoslavia, he attended the University of Belgrade in the Faculty of Philosophy from 1946-1951. He then came to Canada and obtained an Honors Bachelor of Arts degree in Modern Languages in Literature (Russian and German) from the University of Toronto in 1956. In 1958 he received his Bachelor of Library Science degree, also from the University of Toronto. Prof. Sudar was an instructor in Basic English and Citizenship with Frontier College in 1957 before coming to the Lakehead as the Director of the Northwestern Regional Library Cooperative in 1966. He taught German and Russian at Lakehead University in 1965 and 1966 as a sessional lecturer before resigning his Library position in August 1966 to organize the School of Library Technology.
FACULTY APPOINTMENTS

Following is a list of new faculty appointments for '68-'70.

MATHEMATICS
Mr. Lawrence Keith Roy, M.Sc. (Queen's) Lecturer in Mathematics.

MECHANICAL ENGINEERING
Mr. Peter L. Egginton, B.A.Sc. (U.B.C.), M.Sc. (Rugby College of Engineering Technology, Rugby, England), Assistant Professor of Mechanical Engineering.

GEOGRAPHY
Mr. Robert S. Difley, M.A. (Cambridge), Lecturer in Geography.

LANGUAGE LABORATORY
Mr. Nicholas Shevchenko, Technician in Language Laboratory.

FORESTRY
Dr. M. A. K. Khalil, B.Sc., M.Sc. (Muslim University, India), Ph.D. (Minnesota) Assistant Professor of Forestry.

BIOLOGY
Mr. Alastair D. Macdonald, B.Sc. (University of Victoria, B.C.), Lecturer in Biology.

PSYCHOLOGY
Dr. Frank D. Colman, Ph.D. (Western) Assistant Professor of Psychology.

TRANSFER
Mr. Frank Foldy, transferred from the Department of Physics to Department of Psychology.

VISUAL ARTS 1 EXHIBITION

VISUAL ARTS 1, the first in a series of annual art displays to be held in the Lakehead University Centennial Building will be officially opened on Monday, May 19. A complete display of paintings, sculptures, hand-crafts, industrial designs, photography and film, architecture and jewellery will be on exhibition for 10 days. VISUAL ARTS 1 is sponsored by a group which is not aligned with any particular cultural organization. Exhibits have been invited by hobbyists, students and professional artists. The formal opening on May 19 will be by invitation.

COMMISSION PAINTING

A painting by local artist Nancy Bjorge will be hung in the new University Centre Faculty Lounge in memory of the late Trevor W. Page. Mrs. Bjorge was chosen to do the painting during a recent competition by Lakehead artists sponsored by the Lakehead University Faculty Association. Proceeds from the Trevor Page Memorial Fund will cover the artist's commission.

CAMPUS NOTES

Dean of Arts Tim Ryan and Director of Admissions W.D. Robins will attend a conference entitled "Dialogue '69" at the University of Ottawa from May 12 - 14. Participants in the three-day "Dialogue" include representatives of Ontario universities and principals and guidance directors in the secondary school system. The program presents an opportunity to discuss education. President of the University of Western Ontario, Dr. Carlton Williams will be a special guest speaker.

Director of Development, David W. Mangan attended a conference on education at the Quetico Centre on May 2-4 along with Quetico Directors, the staff of the Ontario Institute for Studies in Education and invited guests. The topic of discussion at the three-day conference was "The Quality of Life and Continued Education Over the Next Decade."

The university soccer team practices every Tuesday and Thursday at 5:30 p.m. and Sunday at 11 a.m. on the Teachers' College field.

The university's Health Unit has been moved from the basement of the University Centre and is now occupying new quarters in the cafeteria area of the Residence.

The University will be closed on Monday, May 19 to commemorate Commonwealth Day.

There were 579 delegates at the Ontario Library Association Convention in Sudbury on May 2-'4 including trustees and librarians from all the university, municipal, regional and school libraries in the Province. In attendance at the lakehead were four library technologists from the first two graduating classes, Agnes Harris, Lois Denney, Iris Concilio and Charlotte Elward in addition to Lakehead professional librarians and Don Suder, Alan Pepper, Tony Farthing, Margaret Hollingsworth, Trudy Walf, Marion Childis, Lakehead University librarian Maynard Bjorge and the Northwestern Regional Library's Film Librarian, Mrs. Peggy Hunt.

"BIRGER'S BOOTS WERE MADE FOR WALKIN'

...and that's exactly what Athletic Director George Birger's did. 32 miles of it. Inspired by approximately $11 per mile, Birger completed the recent "Miles for Millions" walkneck and neck with Port Arthur's mayor Saul Laskin at 6:40 p.m. Now Coach Birger will most likely have to walk another 32 miles to collect the $350 owing from the 86 people who sponsored him.

Return postage guaranteed by Lakehead University, Oliver Rd., Port Arthur, Ont.
ARCHITECTURAL VIEWS OF AGORA, UNIVERSITY CENTRE EXTENSION

WILL START IN MORNING

CONVOCATION WILL BE
AN ALL-DAY AFFAIR

A record number of 400 graduates will be presented on Saturday, May 31 when Lakehead University holds its fifth annual Convocation Exercises for the Conferring of Degrees and Diplomas.

The unusually large number of graduates, almost double last year’s graduating class, has necessitated one major change in the usual plan. Convocation exercises will begin at 10 a.m. rather than the usual 2 p.m.

Dr. John B. MacDonald, Executive Vice-Chairman of the Council of Presidents of Ontario universities will be the special Convocation speaker. The actual exercises will be followed by a reception for graduates, family, faculty and administration. The Graduation Banquet and Ball will be held Saturday evening at 7:30 at the Fort Arthur Armoury. Tickets are $10 a couple and can be obtained from the A.R.M.S. office in the Ponderosa.

Actual convocation events begin with the Alumni Association’s Beef and Beer Passing Out Ceremony on Monday, May 20 at 7:30 p.m. The ceremony will be held in the University Centre and features free barbecue beef and beer for all alumni members and graduates.

The Chancellors Reception will be held on the eve of Convocation, Friday, May 30 at 5 p.m. in the University Residence Lounge. The reception is for all graduating students, academic and administrative staff and members of the Board of Governors.

Chairman of the Dept. of Economics, Dr. R. J. Charles will be the special speaker when the Baccalaureate Service is held at 7 p.m. Friday in the University Centre Theatre. The Fort William Male Choir will present an appropriate selection. The service will offer a moment of quiet meditation on the past years of study. Following the service there will be a reception in the University Residence Lounge for graduating students and others attending the Baccalaureate Service.

There will be a limited number of rooms in the Residence available to graduates returning for the Graduation weekend.

* * *

The Centennial Building’s Agora, a Greek word meaning ‘market place’, will, with some modification, look like the above architectural drawing. The central pillars will no longer be tapered and there has been a change in the design of the steps at the rear but the basic ‘look’ remains the same.

North postages guaranteed by Lakehead University.
Owen Rd., Port Arthur, Ont.

Lakehead University WEEK is published weekly by the Department of Information Services. Deadline for receipt of news items is 4 p.m. Wednesday of the previous week. Please submit written copy to the Information Office, Room 463 in the Library Building. Telephone 365-2182, Ext. 301.

Vol. 1, No. 7
May 15, 1969
Lakehead University

TO OPEN CENTENNIAL BUILDING

Lakehead University's $14,000,000 Centennial Building will be officially opened on Monday, Aug. 18 by Dr. D.W. Schneider, President of the National Research Council. The ceremony will begin at 4 p.m. in the Agora between the Centennial building and the University Centre. Dr. Schneider, who will be at Lakehead University to attend the August 18-22 Mid-Canada Development Corridor Conference, will be handed a symbolic official key to declare the building officially open.

A conducted tour of the Centennial building will be held following the ceremony. Coffee will then be served in the Agora to all guests.

A plaque outlining the history of Lakehead University from 1946 to the present will be unveiled by Dr. Tanbelyn a few minutes prior to the official opening ceremony. The final location of the plaque has not yet been determined.

GOV. GEN. TO VISIT L.U.

Governor General Roland Michener will visit Lakehead University on Tuesday, Aug. 19, for the Mid-Canada Development Corridor Conference. He will be the official speaker at a Development Conference luncheon. A tour of the university will proceed the luncheon.

CAMPUS NOTES

Dr. David Rednick, a visiting professor from Texas Technological College and summer school lecturer in anthropology will give a talk on "Underdeveloped People - Underdeveloped Resources" on July 24 at 3:15 p.m. in room 1009.

Dr. Rednick outlined his talk as follows: "In a world emphasizing labour-saving machinery and eventually an automated industry as well as an automated agriculture, large numbers of individuals are condemned as obsolete. The trend is towards a vast upgrading of skills. On the other hand, there are more unskilled on earth each year than skilled. What to do with poverty in the underdeveloped areas of North America and in the underdeveloped areas of the rest of the world will remain for decades to come the most urgent problem of our contemporary industrial and scientific civilization for the gap is widening each decade rather than narrowing."

"The problems of the Indians on the reserves, the blacks in the slums and the poverty-stricken whites in the rural regions are no different from the problems faced by two-thirds of the world’s population in the underdeveloped areas. A large number of Canadians are also underdeveloped; and Canada is the loser when their human potential cannot be used."

assist. Prof. Sister Barbara of the School of Nursing has been elected to represent the Thunder Bay District nurses on the council of the College of Nurses for the next three years.

GRANTS FOR STUDENTS

A cheque for $1,450 from the Ontario Educational and Cultural Exchange Program has been forwarded to Mr. D. Lewis, Chairman of the Department of Languages by William G. Davis, Minister of Education. The contribution is toward the travel costs of the 29 students presently studying Spanish in Saltillo, Mexico.

WEEKLY EVENTS

MONDAY, JULY 21

7 p.m. Shakespeare Workshop Film "Hamlet" (1948) (Laurence Olivier, Jean Simmons, Eddie Herlin, Basil Sydney, Felix Aylmer)

TUESDAY, JULY 22

6:30 p.m. Basketball game - LU vs Videtan
7 p.m. Soccer game - LU vs Italia
7 p.m. Shakespeare Workshop Film "Othello" (1951) (Orson Welles, Michael MacLiammoir, Fay Compton)
9 p.m. Women's Fitness and Rhythms class

WEDNESDAY, JULY 23

7 p.m. Shakespeare Workshop Film "Othello" (1955) (Russian)

THURSDAY, JULY 24

3:15 p.m. Talk by Dr. David Rednick

WEEKLY EVENTS

[visiting lecturer in Anthropology] "Underdeveloped People - Underdeveloped Resources"

4 p.m. Women's Fitness and Rhythms class

7 p.m. Shakespeare Workshop Film "Othello" (1951) (Orson Welles, Michael MacLiammoir, Fay Compton)

7 p.m. Wine and Cheese Party - entertainment by Sally and Martin, Tom Kelly and the Freemen from the Lakehead

FRIDAY, JULY 25

9 p.m. Coffee House - entertainment by Sally and Martin, Tom Kelly and the Freemen from the Lakehead

12 p.m. Coffee House - same as above

SATURDAY, JULY 26

9 p.m. Coffee House - same as above

**ALL EVENTS SUBJECT TO LAST MINUTE CHANGE**
PLAQUE TO BE UNVEILED

DR. SCHNEIDER TO OPEN CENTENNIAL BUILDING

Dr. W. Schneider, President of the National Research Council will officially open Lakehead University’s new $14,000,000 Centennial Building on Monday, August 18.

Dr. Schneider, who will be in the Lakehead as keynote speaker at the Mid-Canada Development Conference, will be handed a symbolic key to declare the building open.

The ceremony will begin at 4 p.m. in the plaza between the Centennial Building and the University Centre Building. A tour of the new building will be conducted for all guests who will then be served coffee in the plaza.

A special plaque unveiling will also take place during the ceremony. The plaque, outlining the history of Lakehead University from 1946 to the present, will be unveiled by the present Chairman of the Board of Governors, J. M. Fleming after a brief address by the past chairman of the Board, Dr. Mel Bartley and Prof. S. F. Wise, representing the Archaeological and Historical Site Board of Ontario.

Born in Woburn, Saskatchewan, Dr. Schneider received his M.Sc. from the University of Saskatchewanc, and his Ph.D. in Physical Chemistry from McGill.

He joined the staff of the National Research Council of Canada as a member of the General Physical Chemistry Section of the Division of Chemistry in 1946. He served as Director of the Division of Pure Chemistry from 1962 to 1966, and Vice-President (Scientific) of the National Research Council of Canada from 1965 until his appointment as President on September 1, 1967.

Dr. Schneider is a Fellow of the Royal Society of London, The Royal Society of Canada, and the Chemical Institute of Canada. He has been awarded the Chemical Institute of Canada Medal and the Henry Marshall Tory Medal of the Royal Society of Canada. The Honorary Doctor of Science degree has been conferred on him by the Universities of York, Memorial, Saskatchewan, McMaster, Moncton and Laval; the Honorary Doctor of Laws from the University of Alberta and Laurentian.

He has won national and international recognition for his contributions to the study of intermolecular forces and molecular properties.

PROPOSED ADDITIONAL CAPITAL WORK TO BE DONE
1972-1973 FISCAL YEAR

1) CENTENNIAL BUILDING RENOVATIONS

The new programmes in Forestry and Engineering will necessitate extensive renovations which along with furniture and equipment will require an appropriation of $100,000.

2) UTILITY METERING

In order to properly assess the cost of operation of Residences, Regional School of Nursing, Cafeteria, etc., it is desirable to metre all the utilities at several points on campus. This will require an appropriation of $50,000.

3) PRESIDENT'S RESIDENCE

Purchase of Residence.
This will require an appropriation of $50,000.

4) FACULTY OF EDUCATION

(a) Dean's Office
(b) Storage Area for Gymnasium

This will require an appropriation of $10,000.

5) MAIN BUILDING

(a) Physical Planning & Construction Office Area
(b) Media Services Office & Work Area

This will require an appropriation of $20,000.

JUNE 13, 1972

CLAUDE H. M. SMITH, CHIEF,
PHYSICAL PLANNING & CONSTRUCTION.
WILLIAM G. TAMBLYN
B.A.Sc., M.Comm., L.L.D.

When the Lakehead University Act was put into effect in 1965, William Gordon Tamblyn assumed office as the first President and Vice-Chancellor. Mr. Tamblyn had taken an energetic part in the institutions affairs for many years while serving on the Advisory Committee and as Chairman of the Board of Governors when the University existed as a technical institute.

William Gordon Tamblyn was born in Toronto on April 9, 1923. He was educated at Upper Canada College, and the University of Toronto, graduating with a Bachelor of Applied Science (Honours), and Master of Commerce (Business Administration). He has since been awarded the Doctor of Laws (LL.D.) from Laurentian University (1966) and the Queen’s Silver Jubilee (1979) Medal.

Mr. Tamblyn married Margeurite McCavour of Fort William, in 1946, and the couple spent a year in China, where Mr. Tamblyn was an administrator for the church of England missions in Honan Province. He then returned to Canada to join the engineering department of the Great Lakes Paper Company, first as Design Engineer, and later as Assistant Chief Engineer. In 1955, he became Chief Engineer for the Mills Steel Construction Company; in 1962 he became President and principal shareholder of Mills, and four subsidiary companies in the construction field.

Always active in community affairs, Mr. Tamblyn was Chairman of the Fort William Board of Education, President of the Lakehead Chamber of Commerce, and President of the Lakehead Builders’ Exchange. During those years he took a deep interest in the Lakehead Technical Institute, as it progressed from an institute to college to university. He was appointed to the Advisory Committee of the Institute in 1953, and after serving continuously as a director, was elected Chairman of the Board of Governors of the Lakehead College of Arts, Science and Technology in 1963.

Much of the institution’s rapid expansion over that significant ten year period, 1953 through 1963, has been attributed to the foresight, interest, and energy of William Gordon Tamblyn.
When the Lakehead University Act was put into effect in 1965, William Gordon Tamblyn had already taken an energetic part in the institution’s affairs, serving on the Advisory Committee and as Chairman of the Board of Governors at the time the University existed as a technical institute.

William Gordon Tamblyn was born in Toronto on April 9, 1923. He was educated at Upper Canada College, and the University of Toronto, graduating with a Bachelor of Applied Science (Honours), and Master of Commerce (Business Administration). He has since been awarded the Doctor of Laws (Hon.) from Laurentian University (1966) and the Queen's Silver Jubilee (1979) Medal. Dr. Tamblyn was awarded a Doctor of Letters (Hon.) by the University in May, 1981.

Dr. Tamblyn married Marguerite McCavour of Fort William, in 1945, and the couple spent a year in China, where Dr. Tamblyn was an administrator for the Church of England missions in Honan Province. He then returned to Canada to join the Engineering Department of the Great Lakes Paper Company, first as Design Engineer, and later as Assistant Chief Engineer. In 1955, he became Chief Engineer for the Mills Steel Construction Company; in 1962 he became President and principal shareholder of Mills and four subsidiary companies in the construction field.

Always active in community affairs, Dr. Tamblyn was Chairman of the Fort William Board of Education, President of the Lakehead Chamber of Commerce, and President of the Lakehead Builders’ Exchange. He took a deep interest in the Lakehead Technical Institute as it progressed from an Institute to a college, to a university. He was appointed to the Advisory Committee of the Institute in 1953, and after serving continuously as a director, was elected Chairman of the Board of Governors of the Lakehead College of Arts, Science and Technology in 1963.

Much of the institution’s rapid expansion over that significant ten-year period, 1953 through 1963, can be attributed to the foresight, interest, and energy of William Gordon Tamblyn.
LU Receives $754,000 For Renovations

"Lakehead University will receive $754,000 towards a major alteration of the Centennial Building that will complete the consolidation and expansion of the Department of Engineering," announced Mr. Joseph Cordiano, Parliamentary Assistant to the Minister of Colleges and Universities at a March 25 news conference on campus. "This consolidation will do much to assist the university to maintain its high standards of excellence in teaching and research."

With the announcement of Government funding for the final portion of LU's multi-year renovation program, total expenditures will amount to approximately $3.6 million.

Details on the allocation of funds will be highlighted in the next issue of AGORA.

Why Do People Remember Medina?

"Being a woman has its advantages," stressed CBC JOURNAL reporter Ann Medina during a special lecture March 26 at Lakehead University. "If you ask yourself why people remember Medina, it's because I'm a woman. I'm different."

Calling herself a "safe feminist or non-controversial feminist", Medina openly admitted during her lecture that she has never spoken about "Women in the Media" before.

Speaking to a mixed audience: males and females, students, community members, the young and old, Medina outlined numerous disadvantages and advantages to being a female reporter. Portions of her talk will be highlighted in the next issue of AGORA.

New Office For Inventions And Inventors

Innovation North, a new centre that will help commercialize new products for the industry and the private sector in Northern Ontario is now in operation at Lakehead University. The centre, which started operation in January with preparatory work, is now officially open to the general public.

Expected to be highly practical, the centre is aimed at solving real problems for industries and providing support for individual inventors from the region.

This includes providing business advice and counselling, brokerage between post-secondary entrepreneurs and the private sector, assisting individuals wishing to commercialize new products and marketing university resources as means of assisting industry to develop new products and processes.

Additional information on Innovation North will be provided in the next issue of AGORA.

Administrative Structure Takes Shape

Three Lakehead University employees have been appointed to new positions in the University's administrative structure.

Dr. Murray Lankester, an LU biology professor, has been appointed Director of Graduate Studies and Research while Dr. John Whitfield, an LU Mathematical Sciences professor, has been appointed Dean of Arts and Science.

John Russell, LU's Director of Information and Media Services, has been appointed LU's new Director of Community Relations. The position combines the responsibilities of the office of Information and Media Services and the office of Advancement and Alumni Services.

Additional information on these new positions as well as the individual's background will be outlined in the next issue of AGORA.

Athletes Of The Year Announced

Jennifer Powley and Jeff Byerley became Lakehead University's Freshmen Athletes of the Year while Lynne Brown and Dave Barkwell were respectively named Female and Male Athletes of the Year. The announcement was made at Lakehead University's Athletic Banquet held March 27.

New Book On Exceptional Children

Dr. Alan Bowd, from Lakehead University's Faculty of Education has written a book on Exception Children in Class. The book has just been released from an Australian publisher. Bowd expects to locate a Canadian distributor shortly. More information about Bowd's new book will be included in the next issue of AGORA.

Basketball Anyone?

Spring League Basketball comes to Lakehead University's C. J. Sanders Fieldhouse, every Tuesday and Thursday night from May 8 to June 27. Both females and males from grades 9 to 13 are invited to register before April 11 at the Athletic Office. Monday to Friday 8:30 a.m. to 4:30 p.m.

In 1984, W. G. Tennison was awarded an Honorary Degree of Laws from Lancaster University. He had previously been Honorary Doctor of Letters at Lancaster University in 1988.

When the Lancaster University law faculty was formed in 1965, W. G. Tennison was appointed Director of Administration. He served as Dean of the Faculty of Law and as Dean of the College of Social Science until 1970. He was also a member of the Advisory Committee on Legal Education and served on the Senate of the University. He was awarded an Honorary Degree of Laws in 1988.

In 1994, when he was the Chief Justice of Jersey, he was made a Judge of the Court of Appeal of Jersey. In 1997, he was awarded the Honorary Degree of Doctor of Laws by Lancaster University.

The influence of W. G. Tennison on the development of legal education at Lancaster University is well recognized and he was a member of the Council of the University.

FORMER head of LU honored

THUNDER BAY (Staff) — Not only is the first president of Lakehead University one of 21 recipients of the Order of Ontario, he's the only one from the Northwest.

William G. Tamblyn of Thunder Bay will receive the award May 4 at Queen's Park, when Lieutenant-Governor Henry N.R. Jackman will invest recipients with the order.

The insignia is a stylized trillium in white and green enamel, edged in gold.

"These remarkable people, many of whom have earned international acclaim, have contributed to Ontario's reputation as a centre of innovation, achievement and excellence," said Jackman in a news release. "They are an inspiration to us all."

Tamblyn was named chairman of the Fort William Board of Education in 1956.

Chief engineer for M.F. Mills for eight years, he became principal owner of M.F. Mills Steel Construction Company Ltd., M.F. Mills Supply Company Ltd., and Lakehead Culvert Company Ltd. in 1960.

In 1965, he was president of the Lakehead Builders Exchange and in the same year, he became president of Lakehead University. He resigned in 1971.

While president, he was named to the Province of Ontario Council for the Arts by the provincial cabinet in 1968. In 1973, Tamblyn became executive assistant to MP Robert Andras.

Campbell
Thunder Bay-
Atikokan
delegates

By SEAN O'CONNOR
The Chronicle-Journal

If the Progressive Conservative riding association of Thunder Bay-
Atikokan has its way, Kim Campbell will become the next prime
minister.

Six of the 10 delegates representing the riding at next month's Tory
leadership convention either support or lean strongly toward Kim
Campbell. Two are uncommitted, and one missed Tuesday night's
meeting.

Another delegate, named auto-

Order of Ontario

William Tamblyn (left), the former president of Lakehead Univer-
sity, was among 21 winners of the Order of Ontario citations
Tuesday. Tamblyn received his citation from Ontario Lt. Gov.
Hal Jackman, right. Tamblyn was president from 1963 to 1971 and
under his leadership the school grew from a small college into a
full university. The awards recognize those who have "enriched
our society by attaining the highest standards of excellence and
achievement in their chosen fields.”
TRENDS IN FOUNDATION GIVING

Over the last few months, I have received telephone calls from faculty inquiring about "foundation" grants. Many of these had to do with background information that served to assist them in deciding whether or not this vehicle was the appropriate one for their particular research or equipment request. The following statistics may assist you in getting a snapshot of how foundation giving compares with corporate donations.

Did you know that:

. 59.8% of Canada's foundations are concentrated in Ontario

. the average size of a foundation grant in Education is $37,832 and it ranks third compared with Science and Technology and Health

. as of July 1992 there were 67,100 registered charities in Canada

. the Canadian Directory to Foundations reports on about 850 active foundations

. 32,718 grants were made by foundations for a total of over $304 million (1990)

. there are five kinds of foundations -- family, special purpose, community, corporate, service club and government each with specific program agendas

To complete the fundraising climate picture, and not surprisingly, corporate donations are expected to decline even more than they did in 1992. For example the drop from 1991 to 1992 was about 4.6%. Even so, based on a survey of 184 Canadian Corporations, it is estimated that corporate Canada donated $482 million in 1992 and that Education is the leading area in terms of receiving this support. What exactly determines donation level? Well, for starters, obviously profit margins, but also the history of the company's giving, philosophy and commitment to community causes and the distinct need of the charitable organization.

While these are not optimistic forecasts, Lakehead University's Share Our Northern Vision has received $1,274,250 from all foundation sources, surpassing our 5-year Campaign goal by $74,250. In spite of the fact that exciting and imaginative projects have always been identified with Lakehead, let us not rest on these laurels.

Much remains to be purchased in terms of equipment requirements, new initiatives and research made possible by the cooperative financial support of foundations, corporation and individuals. It is often those projects which have a practical application that are most successful with foundations. The current trend is for foundations to support multi-faceted projects which incorporate community organizations that could mutually benefit by the specific research project. Wherever resources are shared, foundations usually respond positively, provided it is within their identified areas of interest.

If you have an interesting research idea or you have a specific need for equipment that is a necessary component of your investigations, please contact me at 343-8910. I will be pleased to discuss with you possible options regarding appropriate fundraising vehicles available to suit your need.

-- J. Silverman, Senior Development Officer

GEOLOGICAL TIME SCALE

In December, 1991, the Department of Geology submitted an application to the Canadian Geological Foundation to produce a display which would make the expanse of geological time more understandable. The Canadian Geological Foundation is dedicated to assist the development of geological sciences in Canada and gives priority to projects which are not normally funded by government granting agencies.

On June 11, 1992, the University was notified by the Foundation that $5,000 had been awarded to support our project. With this grant the University had the funds to proceed to purchase the required materials and later pay for the installation of the completed project.

The project would not have been possible without Mr. Sam Spivak. He not only provided the design and artistic talent but volunteered over 250 hours of his time to complete the project. His unique contribution is greatly appreciated.

In August of 1993 the finished display measuring 3.7 m x 12.2 m was mounted to the wall in the stairwell of the Centennial Building for all to enjoy.

-- Dr. M.M. Kehlenbeck, Professor and Chair, Department of Geology
LU renames building to honour Tamblyn

Former president saw university through its early growth

BY WARD HOLLAND
THE CHRONICLE JOURNAL

Not only does William Tamblyn have a name on the end, but now he has a name on the building that is named after him.

The former president of Lakehead University was honoured by the board of governors and president Fred Gilbert on Friday.

They announced that they have renamed the Centennial Building at the Thunder Lake campus the William (Bill) Tamblyn Centennial Building.

"He will always be remembered as the person who built the critical foundation and set the stage for the university to become the institution it is today," Gilbert told a group outside the building.

Tamblyn was unable to attend the ceremony, but his son David, an elementary school principal in Schreiber and Terrace Bay, was there. His wife and other children also attended.

David Tamblyn told the audience at the building that he was happy to see his father honoured.

"I am delighted that my father has been named after this building," David Tamblyn said.

By several accounts, William Tamblyn was a vital university president. He did not rise through the ranks to become president of a university; instead, he was a local engineer and business owner.

William Tamblyn is originally from Toronto. He moved to Thunder Bay in 1942 and became the owner of Great Lakes Steel in the 1970s.

It was appointed president of the university in 1985. A search committee was appointed to find a new president. David Tamblyn said, but they were unable to find one through academic avenues.

From the beginning of its tenure in 1996, Tamblyn went from a staff of 50 to 300, and his son said the university also expanded its facilities.

Brian McKinnon, the Thunder Bay campus, is a member of Lakehead University and was there when Tamblyn was the president.

McKinnon said there was only one building on the campus at the time, a white structure that would eventually be named the Braun Building.

McKinnon said Tamblyn would regularly have lunch with the students. They used to call him "President Bill," McKinnon recalled, because Lakehead had an informal environment.

"He liked the students," McKinnon said. "He was a fine fellow. He was a guy you could talk to. You didn't need an appointment.

John Whittfield, a former professor at Lakehead, recalled the construction of the Centennial Building.

At one point, he said, construction stopped, not because there was a lack of funds, but because the dividing line between Shantalla Township and the city of Thunder Bay ran through the building.

Tamblyn had not gotten a permit from the township and had to cease construction. While the building was still incomplete, Whittfield said that a boat made its way into the building. It was never found, he said.

When he was president of Lakehead University, William Tamblyn made two trips to London, England, in an attempt to recruit staff.

At the time, the provincial government had been so successful in creating universities across Ontario to meet the educational demands of the young people.

Tamblyn stayed in a hotel while in London and interviewed at least 30 people for one of those trips.

Margaret Tamblyn and her family were on hand at Lakehead University for the dedication and renaming of the building in honour of William Tamblyn, who was president of the university. Pictured here, Tamblyn chats with current Lakehead University president Fred Gilbert.

Tamblyn forever honoured

EDUCATION
By Letha Danick, The Source

The Kennedy family is the first family of American politics, the Tamblyn family can certainly stake a claim to the first family of Lakehead University, he said.

Bill Tamblyn, the school's first president who guided the institution through tumultuous times from 1975 to 1972, was recognized as such last Friday with the renaming of the Centennial Building in his honour. It will now be known as the William Tamblyn Centennial Building.

Said David, the second of three generations of Tamblyn to call Lakehead home, "I was quite young at the time, but we always referred to him as the seventh sibling as the university," said David. "I remember him after a plaque honouring his father's achievements was unveiled in the plush courtyard behind the three-story structure."

David Tamblyn was joined at the ceremony by three of his brothers and sisters, and their mother Marguerite Tamblyn, who lives in southern Ontario, was too ill to make the trek.

That didn't stop the who's who of the Lakehead community from showing their founding father.

"If we weren't for Tamblyn, Lakehead's path to the future might have looked entirely different," said current president Fred Gilbert. Before Tamblyn arrived, the school was a technical institute, then a college and finally started the process toward becoming a fully accredited university, a feat accomplished in 1965.

"Tamblyn, who would go on to earn the Order of Canada in 1993, and was on the college's board of governors at the time, oversaw the rapid expansion of the fledgling university and made it what it is today," said Gilbert, a civil engineer turned academic leader.

"All of what you see in terms of the foundation is the creation and the hard work of a very dedicated man, the first president," said Gilbert.

Bill Tamblyn's wife, Marguerite, said the rededication ceremony was a great honour for her husband, and expressed some of the pride he would have felt being there. She followed him to Fort William where Marguerite's father was a board member at Lakehead College. "We're going to move the school forward," said Marguerite.

Marguerite Tamblyn sat at the June, many of her friends couldn't afford to go away for university, and she didn't take long to pay the price.

THREAT M achievement. Marguerite Tamblyn was overjoyed that Lakehead University renamed its Centennial Building after her husband William.

"We just felt like it was something like this," she said. "I think it's a great honour for him, and the school grows from 500 students to more than 3,000, a number that has continued to grow over the years. David Tamblyn said at least one member of the current student population took special notice of Friday's ceremony.

"My daughter is here, and she's sitting in front of the plaque and there's a lot of pride in that fact, but for her and myself and the rest of the family," said David Tamblyn.

Lakehead University students and faculty members wait in the Agora while firefighters look for a source of smoke that forced the evacuation of the Centennial Building on Tuesday.

**Smell of smoke clears LU building**

The building, which is located in the Agora, was evacuated and the fire department responded. Firefighters did a room-by-room search, a Lakehead spokesman said, but couldn't turn up a source for the smoke.

Everybody was allowed back into the building at about 1 p.m.

As firefighters left, they said what likely occurred is people dropped cigarette butts into an exhaust vent located outside of the building near a bus stop. Those waiting for the bus often crowd around the vent to keep warm.

There is an intake vent nearby and it's believed cigarette butts ignited debris inside the exhaust vent, which pushed the smoke into the intake vent and spread the smell throughout the building.

**Graphite samples looking good**

New tests on rock samples taken from a potential graphite mine just west of Hearst show the ore to be of high quality, says the Thunder Bay company actively exploring the property.

able Zenyatta president Aubrey Everleigh said Tuesday in a news release.

The tests in the large vein Atlin deposit revealed a level of purity of 69.7 per cent and 91.5 per cent, the company said.

Everleigh said Zenyatta is exploring the property under an agreement with nearby Constance
